

EQUIPMENT HIRE FORM

Terms & Conditions

- It is your responsibility to inspect the condition of all items listed above and to check they are in good working order prior to hire.
- If the items listed above are found to be damaged upon return you will be financially liable for the cost of new replacement item(s).
- If the items listed above have been lost, you will be financially liable for the cost of new replacement items(s).
- If the items listed above are stolen, unless there is physical evidence of a forcible and violent entry into or exit from a place of storage you will be financially liable for the cost of new replacement item(s).
- If the items listed above are not returned on their due date, the appropriate additional charges will be made and are charged on a per day lateness penalty.
- If equipment is to be used in salt or chlorinated water, it must be rinsed with fresh water at the end of every day.
- If the above listed items are to be transported in luggage by aircraft or other means, it is your responsibility to ensure they are adequately protected in your packing to remain free from any damage during transport.
- The above listed items must be returned in a clean condition, the same in which they were hired or you will be liable for additional fees.
- In the event of damage or loss of the above listed items the credit card below will be deducted with the replacement value of these items.

I have read the terms and conditions above. I fully understand them and agree to all the terms and conditions:

EQUIPMENT HIRE FORM

PLEASE READ

SCHOOL DIVE EQUIPMENT ETIQUETTE

Please treat our school equipment with respect

- Do not sit or stand on kit boxes as this will break them
- All Equipment must be thoroughly rinsed after diving with fresh water to clean off any mud, dirt, debris, salt water or chlorinated water.
- Before rinsing, all regulator dust caps must be blown out to remove any water and replaced into the yoke fitting securely. It is extremely important to secure the dust cap at the end of a days diving to ensure the inside of the regulator is not damaged by moisture which will cause corrosion.
- Please do not urinate in your wetsuits. If you have an accident please ensure you wash your suit with soapy water before returning it to us.
- Please ensure all your hired equipment is completely dry and wetsuits are turned the right way round before returning them to us.
- Please drain your BCD of any water that has collected inside the bladder of the jacket. To do this turn your BDC upside down, press the deflate button, hold the hose straight down and water will drain from the exhaust valve.

2DiVE4 accept the responsibility of the general wear and tear of our equipment, however, the above points help us to keep it in the best possible condition for our future customers, just like yourselves. Please sign to say you have understood the above equipment etiquette:
